

Proclamation on the Nations of Canada & Mexico by the Queen Mother of the Americas

In a long-due recognition that our organization is an international one that has chapters in three countries: Canada, Mexico and the United States, I proclaim on this day that The Court of Vancouver, British Columbia, being the first court to be established in the great nation of Canada, will be given the permanent honor of always being the second court to be presented at all coronations and official ICS events.

Further that Ted Northe is and always will have the honor and respect to be addressed as Her Most Imperial Majesty Empress Ted Northe of Vancouver, B.C., Empress of All Canada. Let it be known further that Empress Ted Northe's title is for life and will be honored always as part of her legacy to her community, court and nation.

I also proclaim that The Court of Baja, Mexico will be the third court to be announced at all coronations and ICS events in honor of that court being the first court in Mexico.

My proclamation honoring The Court of San Francisco as the Mother and Founding Court of the International Court System, and thus always the first court introduced at all coronations and ICS events, stands.

Respectfully,

Nicole
Queen Mother of the Americas
